PUBLIC NOTIFICATION

Sub: Temporary Suspension of Registration Services in RAMIS

The Department of Revenue and Customs (DRC), would like to inform all taxpayers and the general public that, in preparation for the go-live of Phase II-Income Tax Module of the Bhutan Integrated Taxation System (BITS) on 2 December 2026, the Registration Module in the Revenue Administration Management Information System (RAMIS) will be temporarily unavailable during the following period:

From: 5:00 PM on 27 November 2026
To: 1 December 2026

The temporary suspension of registration services is necessary to facilitate the smooth transition of data from RAMIS to BITS and ensure data integrity during the migration process.

During this period, registration and registration-related services through both the online and back-office systems of RAMIS will remain unavailable. However, all other services in RAMIS will continue to remain operational. Taxpayers are advised to plan their registration-related activities accordingly to avoid any inconvenience.

The Department regrets any inconvenience caused and appreciates the understanding and cooperation of all taxpayers and the general public during this transition.

Director General
Department of Revenue and Customs
